**MCTE** – E-board reviewed the task list, various tasks are completed or in progress. Lee Ann is currently coordinating the classes and expects to have a completed schedule by 12/15. 2 diamond partners are confirmed. Paul will be sending an email to the board to confirm the logo so that we can prepare for the MCTE signage.

ATA approval is pending. We hope to have approval by next week.

Once the ATA approval is confirmed, Lee Ann will send out an email blast to the membership notifying them of the approval and also the draft class schedule.

Breakout sessions were discussed. There is an increase in 9-1-1 GIS related classes. We are considering the feedback that we received last year regarding the quality of our classes. Attendees wanted quality over quantity and felt rushed in between classes. The board would like to incorporate classes that cover current hot topics and future topics.
